# TESTIMONIALS

- ***“The Nigerian Indonesian Trade and Investment Forum 2025 was a major eye-opener for me. In terms of organization, leadership, and management, the Chamber — under the president’s direction — did an exceptional job. The forum was not just about filling a room with attendees, but about bringing together the right people — decision-makers and partners with purpose. The engagements were highly productive, and many of the discussions we had have continued beyond the event, holding great prospects for collaboration. The post-forum meetings and follow-up sessions facilitated by the Chamber’s leadership were also very rewarding and instructive. Overall, it was a truly worthwhile experience, rich with opportunities and meaningful connections.”***

**—Dr. Ayodele Aderinwale, MFR, Chairman, Justrite Superstores**

- ***“It was truly an honor to be part of this initiative and to witness how the relationship between Indonesia and Africa continues to evolve — a connection deeply rooted in history, dating back to former President Soekarno’s vision of solidarity and cooperation among developing nations. That legacy remains alive today, as we transform shared values into real economic opportunities. What stood out for me was the readiness of both regions to collaborate beyond dialogue — toward building food security systems, industrial capacity, and knowledge transfer that empower our people and industries alike. Moving forward, I believe Indonesia and Africa can co-create a new model of partnership — one that bridges resources, expertise, and trust across sectors such as agro-processing, logistics, and vocational development.”***

**—Sylvie Tomaso, BA, Senior Business Representative, Indonesia Business Council (IBC); Vice Chairperson, KADIN Africa Committee**

- ***“Serving as the Jakarta-based representative for NICCI has given me the unique opportunity to connect Indonesian businesses with Nigerian counterparts. This year’s trade forum was especially fruitful — the Nigerian delegation presented unique opportunities that were well-received by Indonesian partners. We didn’t just connect trade partners; we built joint ventures and fostered meaningful collaborations that bridge both nations. Personally, I can’t wait for next year’s forum. Thank you for making me a part of NICCI.”***

# TESTIMONIALS

- *“Attending NIITF 2025 was truly an enriching experience. What stood out most was the strong focus on content and the way every segment of the convention explored the shared yet diverse opportunities between Nigeria and Indonesia — from culture and population dynamics to geography and business potential. The emphasis on the ease of doing business was particularly inspiring, highlighting why fostering these bilateral relationships is so critical. I was also encouraged by conversations around intangible cultural exchange, and how it can deepen mutual understanding and open new avenues for collaboration. For future editions, I’d love to see more intentional business pairing ahead of the event and structured sector-specific breakout sessions that enable multiple, focused discussions. That would make the experience not just a journey, but a truly immersive and impactful business engagement for all participants.”*

**—Kola Oshalusi, CEO Insigna Media**

- *“The Nigerian Indonesian Investment and Trade Forum 2025 was a resounding success. The comprehensive agenda and quality of discussions provided invaluable insights into the growing trade and investment opportunities between our two nations. Events like this are crucial for fostering stronger bilateral ties and creating a prosperous future for both Nigeria and Indonesia.”*

**—Wijaya Chandra, General Manager, International Business, Dexa Medica**

- *Attending the NIITF 2025 was an enriching experience that showcased the dynamic growth and potential of international trade and investment. The event brought together diverse stakeholders — entrepreneurs, government agencies, and industry experts — creating a vibrant platform for collaboration and knowledge exchange. What stood out most was the practical focus on empowering businesses to expand beyond borders, complemented by insightful panel discussions and live demonstrations that made complex trade concepts accessible to all participants. The session was particularly enlightening for emerging exporters and SMEs, as it demystified trade procedures and emphasized the importance of digital trade facilitation tools. For future editions, incorporating more sector-specific workshops and networking clinics could further enhance engagement and provide participants with tailored, actionable insights to drive global trade success.”*
